Within 180 days of the effective date of this permit issuance or reissuance (excluding permit modifications), the permittee shall review the local limits of the program and submit to EPD a written technical evaluation of the need to revise the local limits.

- d. Ensuring that industrial wastewater discharges from industrial users are regulated through discharge permits or equivalent individual control mechanisms. Compliance schedules will be required of each industrial user for the installation of control technologies to meet applicable pretreatment standards and the requirements of the approved program.
- e. Inspecting, surveying, and monitoring to determine if the industrial user is in compliance with the applicable pretreatment standards.
- f. Equitably maintaining and adjusting revenue levels to ensure adequate and continued pretreatment program implementation.

Preparing a list of industrial users which, during the previous twelve months, have been in significant noncompliance with the pretreatment requirements enumerated in 40 CFR Part 403.8 (f)(2)(viii). This list will be published annually in the newspaper with the largest circulation in the service area during April and each April thereafter.
