

Proposed Topics for Chapter 62-302, F.A.C.

(continued)

- **Changes under consideration include**
 - **Removal of references to “weight of evidence approach”**
 - **Clarification of evaluation of floral metrics (for NNC achievement) and conducting floral evaluations during different hydrologic seasons**
 - **Updates to floral and faunal metric decision keys**
 - **Clarification of evaluation of stream chlorophyll *a* values that fall between 3.2 and 20 µg/L**
 - **Also adds options for the evaluation**
