4.5 Jurisdictional Determination Request

The USACE has the sole authority to determine whether wetlands or water features are “jurisdictional.” Under certain circumstances, wetland areas are considered non-jurisdictional because they lack a significant nexus with other wetlands or waters of the U.S. TTL utilized the *USACE Jurisdictional Determination Form Instructional Guidebook* (USACE and EPA, 2007) to complete a *SAS APPENDIX 1: Request for Corps of Engineers Jurisdictional Determination (JD) and/or Delineation Review Form* (Appendix E).

It is TTL’s opinion that with the exception of the ditches (S-2, S-4, S-8, S-9), all observed tributaries and wetlands within the delineation area are jurisdictional features due to their significant nexus to nearby relatively permanent waters. Copies of tables of the aquatic features details and flag locations are also included in Appendix E. The ditches that occur within wetlands have been included and calculated as part of the wetland total acreage.

TTL recommends that a delineation review of aquatic resources of the potentially jurisdictional site features be requested from the USACE Savannah District. If the USACE is not engaged regarding a jurisdictional determination or delineation review of aquatic resources, TTL is neither responsible for the final determination of jurisdictional features within the review corridor, nor responsible for
