

SCOE NMP

In Case of a Land Application Manure/Waste Discharge Emergency, implement the following :

- a. Stop all other activities to deal with the emergency.
- b. Assess the extent of the emergency and determine how much help is needed.
- c. Call for help if needed.
- d. If spilled on the road, call the sheriff's office for traffic control and clean the spill immediately from the road and roadside if needed.
- e. Contain the spill or runoff from entering the stream or waterway using straw bales, saw dust, or soil material.
- f. Prevent further runoff by incorporating the waste.
- g. Initiate additional containment measures, corrective measures, or property restoration measures as directed by emergency agency officials.
