

4b.	<p><b>Purchase Portable Generators for lift stations:</b> The purchase of three portable generators will be completed (one per year, with the first generator purchased by December 2014) so that any existing lift stations not wired with two independent electric feeds can be connected to a portable generator for emergency power needs. In addition to the generators, the City will work with Godwin Pumps to meet emergency bypass pumping needs at each lift station whenever needed.</p>	December 2016
5.	<p><b>Ongoing Repairs to the Existing Withlacoochee WPCP:</b> Ongoing repairs to the existing Withlacoochee WPCP will be conducted to maintain permit compliance until such time as the new treatment plant is brought online. Present repairs include new bar screens and temporary blower system.</p>	August 2017
