

21. The permittee is authorized to withdraw a maximum of 0.9840 mgd of groundwater for beverage processing use. Daily allocations are calculated on an average annual basis.
22. The permittee shall cap Well P-1 (Station ID 135840) in a water tight manner upon placing Well P-3 (Station ID 138124) in to use.
23. The permittee shall maintain the Ginnie Springs gauging station (Station ID 02322400) through the duration of this permit; and ensure hourly stage, water temperature, conductivity, pH, nitrate, and dissolved oxygen measurements are reported to the District in an electronic format in the event this station is no longer maintained and reported by the USGS.
24. With advance notice to the permittee, District staff with proper identification shall have permission to enter the project site to, inspect, observe, collect samples, and take flow measurements of springs under the permittee's ownership or control. The permittee shall either accompany District staff onto the property or make provision for access onto the property.
25. Except as may be expressly provided in the permit conditions, the entire groundwater allocation authorized by this permit shall be bottled at the Gilchrist County facility or otherwise used at the Gilchrist County facility for potable uses, equipment cooling, line flushing, and other industrial uses. As used in the permit conditions, the term "bottled" means sealed in bottles, jugs, and/or similar containers that are intended to be later offered for retail sale for human consumption. As used in the permit conditions, the term "Gilchrist County facility" means the manufacturing facility located at 7100 NE CR 340, High Springs, Florida 32643 in Gilchrist County, Florida.
26. A portion of the groundwater allocation authorized by the permit may be bottled at the Madison County facility. As used in the permit conditions, the term "Madison County facility" means the manufacturing facility located at 690 and 1059 NE Hawthorn Avenue, Lee, Florida 32059 in Madison County, Florida. (The groundwater allocation authorized by the permit is not based on any use at the Madison County facility. The permit application is being granted based on the expectation that the product line build-out at the Gilchrist County facility will be completed in accordance with the schedule provided in the application documents submitted on November 1, 2019.)
27. With advance notice to the permittee, the permittee shall arrange and ensure that District staff with proper identification shall have permission to enter, inspect, observe, collect samples, and take measurements of the Gilchrist County facility and the Madison County facility to determine compliance with the permit conditions and permitted plans and specifications. The permittee shall either accompany District staff onto the property or make provision for access onto the property.
