Scout The Rocks before shooting: the difficulty of those rapids varies widely with water level. In the wildwood in the spring you may see resurrection fern or red Ogeechee limes. Plenty of swimming, fishing, and sand lunch beaches.

**Water Levels:** Statenville, GA, USGS Gauge 02317500:  
**78.1' (2.0') lowest boatable**  
**85.1' (9.0') highest safe**
