

and 270.42. The Permittee must implement corrective actions beyond the facility property boundary, where necessary to protect human health and the environment, unless the Permittee demonstrates to the satisfaction of the Director that, despite the Permittee's best efforts, the Permittee was unable to obtain the necessary permission to undertake such actions. The Permittee is not relieved of all responsibility to clean up a release that has migrated beyond the facility's boundary where offsite access is denied. On-site measures to address such releases will be determined on a case by case basis as required under 40 CFR 264.101(c).

2. The CAP shall include a schedule of implementation with intermediate milestones beginning with the issuance of the permit modification requested pursuant to Condition IV.G.1. and continuing through the compliance period.
3. The CAP shall include a cost estimate and demonstration of financial responsibility for completing such corrective action as required by 40 CFR 264.101(b), O.C.G.A. Section 12-8-68, and Rule 391-3-11-.05.
4. The Director shall review the CAP required under Condition IV.G.1. and notify the Permittee in writing of the need for further corrective action measures as required by 40 CFR 264.101(a) and 40 CFR 264.101(c), or of an approval of the CAP.
5. Within thirty (30) days (or other EPD approved schedule) of Permittee's receipt of Director's written notice for further corrective action measures referenced in Condition IV.G.4., the Permittee must address, to the Director's satisfaction, all comments and concerns included in the Director's written notice referenced in Condition IV.G.4.

#### IV.H. Schedule of Compliance

1. All plans and reports required by this Section are subject to the approval of the Director prior to implementation. The Director shall specify in writing any deficiencies of any plan and/or report submitted by the Permittee pursuant to this Section, including a schedule for resubmission of revised documents to address said deficiencies. The Permittee shall revise all submittals as specified by the Director, and must address, to the Director's satisfaction, all comments and concerns included in the Director's written notice, within an EPD approved response period.
2. For any schedule of implementation required by this Section, if the time required to complete any interim activity is more than one year, the schedule shall specify interim dates for the submission of reports of progress toward satisfaction of the interim requirements.
3. The results of all plans and reports shall be submitted in accordance with the approved schedule. Extensions of the due date for the submittal of any plan or report may be granted by the Director based on the Permittee's demonstration that sufficient justification for the extension exists.
4. Upon approval by the Director, all plans, schedules, and reports shall be enforceable as conditions of this permit.
5. If at any time the Permittee determines that any plan, schedule, or report required under this Section no longer satisfies the requirements of this permit or 40 CFR 264.101, the Permittee must submit an amended plan, schedule, or report to the Director within thirty (30) days of such determination.
