

requirements in accordance with the requirements of this part and NFPA 59A. In the event of a conflict between this part and NFPA-59A-2001, this part prevails.” That includes such things as delineating Exclusion Zones for Thermal Radiation Protection (Part 193.2057)⁵ and Flammable Vapor-Gas Dispersion Protection (Part 193.2059).⁶

- **OPID (Operator Identification Number)** requirements under Title 49 of the Code of Federal Regulations (49 CFR)^{7, 8}; emphasis in the original: “The Operator Registry Notification is used by operators to report certain asset-changing or program-changing events associated with pipelines, pipeline facilities, or LNG facilities included under an OPID.

“Each operator of a gas or hazardous liquid pipeline, or pipeline facility, or LNG plant or LNG facility is required to submit notification of specified events to PHMSA in accordance with §191.22(c) or §195.64(c). When a specified event involves more than one operator (for example, when one operator acquires a pipeline system which was divested by another operator), all operators involved are required to submit a notification separately reflecting the event. Operators must submit notification either 60 days (or more) before the planned occurrence or 60 days (or less) after the occurrence, as specified in these regulations.”
