Re: Petition No SE 23-01 – 3RT Sand Mine Operation

To whom it may concern;

As I am unable to attend the public hearing in person, may this letter serve as an adamant 'No' to the Request of a Special Exception for a major mining operation to be allowed in the designated area.

I am not only concerned about property values, but the effect such an operation can have on the environment, disappearing green space and the water supply for existing residents and our future generations.

Sincerely Yours,

Kenneth J. Vathauer
