

1/23/2023

Dear Tracy Hectors,

Receiving your letter of April 12 was beyond disturbing - to say the least.

This request for a mining operation is just plain wrong.

Our air, road, noise & light pollution will go beyond all tolerance.

Water table is only 30 ft down. We are on well water here - THIS SHOULD NOT BE ALLOWED!

That machinery makes dust so racket - THE DECIBEL LEVEL WILL EXCEED & GO OVER LIMITS.

The silica dust flying around creates so cancer causing fumes - THAT WILL CAUSE HEALTH ISSUES

Traveling 27 will be so noisy & so bad will be harmful.

exp. THE TRUCKS ARE HUGE - AND THEY CAUSE A LOT OF ACCIDENTS - ALOT!

I lived in Key Largo for 2 yrs (1988-90); And I experienced all the "joy" of their operation while driving to run from Florida City to work.

You do not want ~~me~~ RYAN THOMAS to do this in any way. Shape, form, or idea!

PLEASE DO NOT ALLOW THIS TO HAPPEN. MY 1ST HOME, BOUGHT AND PAID FOR - MY RETIREMENT HOME - PLEASE STOP THIS FROM TAKING AWAY ALL I WORKED FOR.

Tracy,

Susan J Wood
