

1. Oppose the Twin Pines Minerals LLC (TPM) strip mine near the Okefenokee Swamp, as well as any other strip mine permit applications within ten miles of the Swamp.
2. Request the U.S. Army Corps of Engineers to reverse their decision to abandon oversight of the mine site, and to resume permit review including preparation of a full Area-Wide Environmental Impact Statement with public hearings, public comment, and independent third-party review.
3. Request that if the Georgia Environmental Protection Division will not reject the permits, that it should thoroughly review them to at least the same degree and extent as a thorough U.S. Army Corps of Engineers Area-Wide Environmental Impact Statement with public hearings, public comment, and independent third-party review.
4. Request the Georgia legislature to pass appropriate legislation to prevent such strip mines in the future, whether near the Okefenokee Swamp or near any of the blackwater rivers in the Suwannee River Basin in Georgia, including the Suwannee, Alapaha, Alapahoochee, Willacoochee, Withlacoochee, and Little Rivers.

SO RESOLVED, this 8th day of January, ²⁰²¹~~2023~~.

CITY OF NASHVILLE, GEORGIA

Travis Brown
Travis Brown, Mayor
