

Figure 10. Aerial image of the FECR **Hialeah Rail Yard** (enclosed in red outline). Trains enter and leave the Hialeah Yard at the right side of the image. North is to the right in the image. The rail yard is surrounded on three sides by a canal. Industrial occupancies are located to the north, west and south. Residential areas are located to the east.

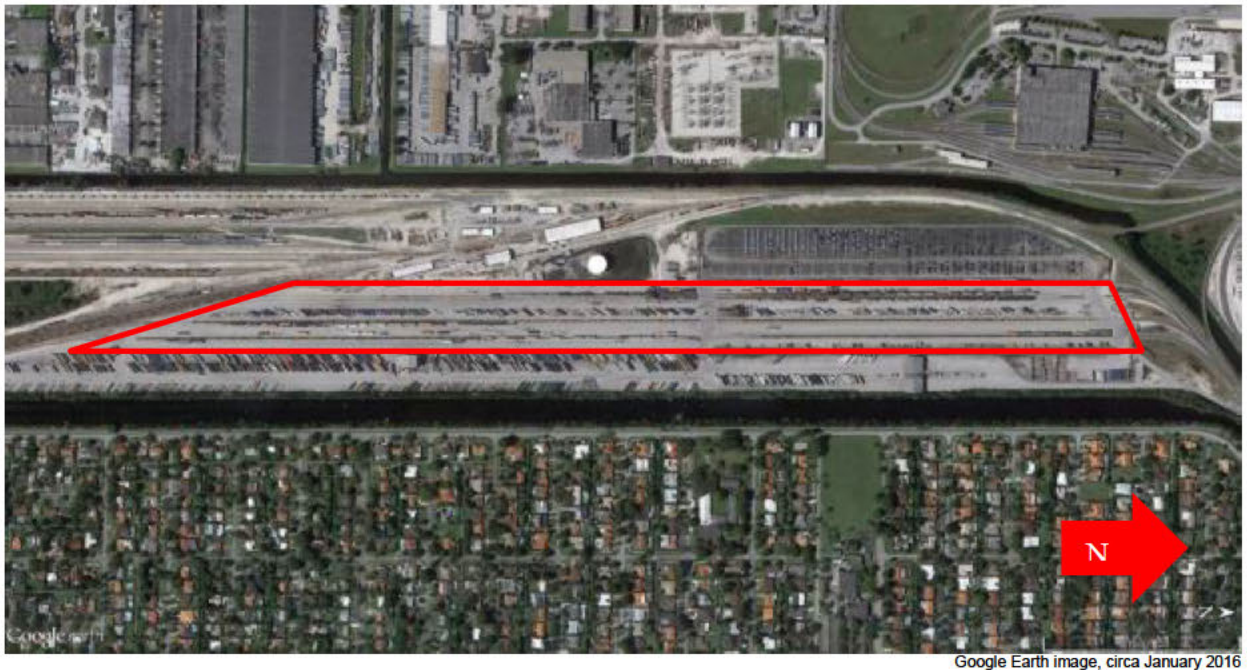

Figure 11. Close-up view of the FECR **Hialeah Intermodal Facility** intermodal ramps (area outlined in red) where containers are lifted on and off of rail cars.
