### Development Standards

The Williams Legacy Planned Unit Development will maximize the use of existing public facilities and services to discourage the proliferation of urban sprawl and provide a clear separation between rural and urban uses as needed.

To avoid demand exceeding the City's adopted level of service standards and ensure development occurs concurrently with the availability of utilities, facilities, and services, development within the Williams Legacy Planned Unit Development will follow an incremental pattern of expansion in phases, coordinated with the City, to reflect a natural extension of existing development areas within the City.
