¹The following abbreviations are used to indicate the status of state-protected plants and animals or those proposed for state-protection in Georgia and Florida:

E = Listed as endangered. A species which is in danger of extinction throughout all or part of its range

T = Listed as threatened. A species which is likely to become an endangered species in the foreseeable future throughout all or parts of its range.

R = Listed as rare. A species which may not be endangered or threatened but which should be protected because of its scarcity.

U = Listed as unusual (and thus deserving of special consideration). Plants subject to commercial exploitation would have this status.

CE = Plants that are on the Commercial Exploited list (Florida only).
