Albany, Georgia 31701

Dear EPD,

On January 4, 2021, Ray City had a high rain fall event. On that day, due to the rain and a higher than average TSS test, approximately 88,000 gallons of treated wastewater exceeded our permit. This is considered a spill event. This took place in Cat Creek at the WTP.

Ray City is taking all precautions to prevent this from happening again.

Sincerely

Brenda Exum  
Mayor
