

Bradford County, Florida
Office of Emergency Management

TOPIC	DISCUSSION	FOLLOW-UP
	<p>#1. Improve drainage.... Item has been completed.</p> <p>#2 Build new EOC... Brian noted that there are 9 counties (including Bradford) being considered in the Governor's upcoming budget requests for the planning and engineering phase only for an Emergency Operations Center. Should Bradford County be awarded the grant it will be for \$200,000.00 to have planning and engineering drawings developed.</p> <p>#3 SRWMD watershed study.... Brian commented that a request is in for funding to clean out Sampson River from the lake to Rayonier property as well as Hampton Lake canal. Paul Still expressed concerns of the mouth of Alligator Creek being clogged where the water runs into Rowell Lake where water will back up and cause flooding into Starke should the city have a significant rainfall event. Sheriff Smith commented that it is way down.</p> <p>Brain Brooker noted that bids are coming in for flooding issues. Paul Still noted the county needs to look the bids very carefully.</p> <p>Paul Still also noted that Laura St and 301, where they cleaned out the bridge, has done no good it is still clogged up. Ongoing maintenance needs to be done.</p> <p>Ray Shuford commented that DOT has a sub-project to replace bridge at Alligator Creek. Brian Johns stated that is not until bypass is complete to redirect traffic which is scheduled to be in 2018-2019.</p> <p>Paul Still mentioned that the county should apply next year with SRWMD grants and river projects.</p> <p>Paul Still suggested adding a separate item to the project list titled Flood Hazard Analysis for Bradford County which would not be directly</p>	<p>Item to be moved to completed category of list.</p> <p>Brian Brooker from SRWMD will check with Pat Webster on this issue.</p>
