

The following was noted for the goals and objectives that were identified in the previous approved LMS plan:

- They reflect the updated risk assessment.
- They were analyzed and re-evaluated which lead to the current mitigation projects that will reduce the vulnerability for each jurisdiction.
- They did support to the changes made in the mitigation priority list, and
- They provided the direction needed to reflect the current State of Florida goals for mitigating hazards within the counties

<b>Hazard</b>	<b>Goals</b>	<b>Goal Description</b>
<i>Flood</i>	Goal 1.1	Minimize damage to existing and future buildings and infrastructure as a result of flooding.
<i>Sinkhole</i>	Goal 2.1	Minimize damage to future buildings and infrastructure by identifying and mapping sinkholes and areas of known sinkhole formation and providing policy direction in local government comprehensive plans which limits and guides development away from such areas.
<i>Hurricane and Tropical Storms</i>	Goal 3.1	Reduce the number of buildings without public utility services in the aftermath of a hurricane.
	Goal 3.2	Reduce the length of time buildings are without public utility services in the aftermath of a hurricane.
	Goal 3.3	Reduce the susceptibility to damage of existing and future buildings to damage caused by high winds associated with hurricanes.
<i>Tornado</i>	Goal 4.1	Minimize loss of life as a result of tornado events.
<i>Riverine Erosion</i>	Goal 5.1	Maintain current levels and rates of riverine erosion by limiting development within, and directing development away from the 100-year floodplains of rivers, streams, and creeks.
<i>Wildfire</i>	Goal 6.1	Minimize damage to existing and future buildings and infrastructure as a result of wildfires.
<i>Drought/Heat Wave</i>	Goal 7.1	Minimize declines in water table levels as a result of drought.
