

## Valdosta City Council

216 East Central Ave  
Valdosta, GA 31601

### SCHEDULED

Meeting: 12/11/25 05:30 PM

Department: Engineering

Category: Bid

Prepared By: Lauren Hurley

Initiator: Lauren Hurley

AGENDA ITEM NO. (ID # 4064)

DOC ID: 4064

## Consideration of bids for the Knights Academy Road and Goodyear Utilities Projects.

### BUDGET IMPACT/FUNDING SOURCE: SPLOST VIII

**HISTORY:** The City of Valdosta is experiencing increased regional growth within the Cherry Creek basin along the Bemiss Road corridor. New sanitary sewer improvements are required to facilitate growth and new connections to the public sewer system. Development in this area has historically been constrained due to the available capacity for distribution at critical nodes within the system such as gravity sewer transmission mains and various lift stations.

**FACTS AND ISSUES:** The Knights Academy Road work consists of the installation and construction of a sanitary sewage lift station, installation of about 2200 linear feet of new gravity sanitary sewer, installation of about 5800 linear feet of sewer force main, and other demolition, repair and patching, grading, grassing, and all related work. The Goodyear work consists of installation and construction of a sanitary sewage lift station, installation of about 500 linear feet of new gravity sanitary sewer, installation of about 750 linear feet of sewer force main, about 150 linear feet of watermain, and other demolition, repair and patching, grading, grassing, and all related work. Invitation for Bids were posted on the City website and on the Georgia Procurement website in accordance with State law and City policies. Eight firms attended the pre-bid meeting on November 11, 2025, and three bids were received and opened at 10:00 am on December 2, 2025. The low bid is considered both responsive and responsible.
