

Active Permits in Georgia (FY2026)

■ Title V Permits ■ Synthetic Minor (SM) Permits ■ Minor Permits / Permit by Rule

Expedited Permit Program - APB offers an expedited permit application processing program to companies that want permits delivered quickly. Fees are assessed for program participation.

SFY 2026 total-to-date:

- 24 applications accepted
- \$382,500 in expedited fees collected
- Open applications: 19

Radioactive Materials Licensing Actions

The APB issues licenses to users of radioactive materials such as hospitals, doctor's offices, radiopharmacies, industrial radiography, colleges, universities, environmental laboratories, consultants and industrial plants with gauging devices. Average length of time to complete a license application review varies based on the complexity of the application.
