

Fee Collection Activities

Much of the Air Protection Branch is funded through fees collected from regulated entities. Air permit fees are collected from permitted factories and power plants collectively referred to as stationary sources. Permit fees fund most of the permitting, compliance, source monitoring, planning, and support activities of the Branch. Air permit fees include annual fees and permit application fees for certain types of permit applications. The Branch receives \$1.44 per motor vehicle emissions test from the fees collected at emissions testing stations. These are vehicle Inspection and Maintenance or “I&M” fees that support the implementation of the vehicle emission testing program. The counties receive \$1.00 per test. Radioactive Material Program fees are collected from entities that are licensed to use radioactive materials and are used to implement licensing and compliance activities associated with radioactive materials.

Total Fees Collected

- Title V Fees are mostly collected in September. (Some large emitters pay quarterly.)
- I/M Fees are evenly distributed throughout the year.
- Radiation Fees are generally collected in October.
