

Section 7

Regional Summary

This section summarizes the water and wastewater forecasts within the region for all the sectors combined.

7.1 Water Demand Summary

The full regional water demand including municipal, industrial, agricultural and energy uses are summarized in the figures and tables of this section. **Figure 7-1** shows the regional water demand per basin for surface water withdrawals and per aquifer for groundwater withdrawals while **Figure 7-2** shows the regional water demand per sector. Municipally-supplied industrial demand is removed from these totals to avoid double-counting. **Figure 7-3** shows the sector breakdown by County for 2020. **Table 7-1** provides a breakdown of the demand types per County for the whole planning period.

Figure 7-1
Regional Water Demand by Basin and Aquifer

Note: Groundwater demand has been assigned to priority aquifers. Gordon aquifer demands were reclassified as Floridan
