(1)*Maximum Send-Out Capacity from the
truck loading station at this facility is .04
Bcf/Day or 14.6 Bcf/Yr. (484,262 Gal. Day)

(2) Company used an EIS from 2008 in
application to DOE that was rescinded on
October 8, 2010.

(3) Original application called for two, 4 Bcf
LNG tanks. Developer revised plan to Phase
I, one, 1 Bcf tank. However, the remaining
Phase II, 4 Bcf tank has not been withdrawn.
Both FERC and the DOE are supposed to be
reviewing this facility in its new "totality" of
5 Bcf.

(4) The original problem in the EIS has not been resolved and involves CFR Title 49, Section 193.2059.

**Transported
in ISO
Containers*
to Ports**

Notes/Comments

Jacksonville Questions concerning CFR Title 49, Section 193.2057 and 193.2059
Under DOE Review

Miami
Everglades
Palm Beach
Jacksonville
Canaveral

Many Questions:
(1) Inappropriate application of B5.7
Categorical Exclusion from NEPA review

(2) Possible Violations of CFR Title 49
Sections 193.2057 and 193.2059, et al

(3) Exported 540,000 gallons to Barbados
through 3rd Qtr. 2016

Miami
Everglades
Palm Beach
Jacksonville
Canaveral

If this facility is constructed and commences operations, it will be in violation of CFR Title 49, Section 193.2155(b). Facility has filed a petition with PHMSA for a variance to avoid compliance. This and other Title 49 issues unresolved.

Tampa and
Rockport of
Tampa: In
negotiation

New Type of LNG facility: "Mobile" LNG.
Many issues, including Jurisdictional
Question; possible violations of CFR Title 49.
Facility does not meet definition of "Mobile"
facility. NEPA question.

Application "ON HOLD" AT DOE

meone to mount a legal challenge.
