L Remarks

Local Option

Units dispatched reference gas leak. UOA found that landscapers had dug around a gas line and cut it with the shovel. The line was actively leaking before the meter. Power was shut off by the homeowner to the home and the one next to it. All units cancelled, E10 awaited TECO gas to arrive. E10 put a vise clamp on the pipe which substantially slowed the leak. Teco technician dug and completely clamped the line. No fire hazards noted and E10 was released by TECO. Nothing further was required.
