**View the film:**

**“At What Cost? Pipelines, Pollution and Eminent Domain in the Rural South”**

**Pipeline Companies:**

- **Misrepresent public need and threaten to use eminent domain to seize private property from landowners.**
- **Have money and spend it on lawyers and public relations.**

**Pipelines:**

- **Leak: Undetected corrosion becomes leaks of pollutants into wells, rivers, and springs.**
- **Explode: Pipeline companies have historically bad safety records, and locals are left to pay for emergency response.**

**We the people:**

- **Farmers, environmentalists, and people who own property, pay taxes, or drink water oppose these pipelines.**
- **Pipeline companies have more money, but the people outnumber them.**

**Solar power rising:**

- **The Sunshine State can go straight to faster-to-install, cheaper, far-safer and cleaner solar power.**

**WWALS  
Watershed  
Coalition  
presents:**

**“At What Cost?  
Pipelines,  
Pollution, and  
Eminent Domain  
in the Rural  
South”**

**A documentary  
film by Mark  
Albertin**

**For landowners, it  
has become a  
battle over  
property rights  
and the  
environment.**
